

# Mauricio Dubon

## 6'0" – 173 lbs - Age: 26

**Strengths:** Bat to Ball, Sweet Spot %, hits left-handed pitching well.

**Areas to Improve:** Chase, Damage on Contact, right-handed pitching.

**Going forward:** Mauricio needs to increase his damage on contact, while he could get on a bat speed program he should prioritize gaining strength. With a high sweet spot % searching for bat speed may cause him to lose barrel accuracy. We want him to take the same swing but hit the ball harder. Improving 10% on his Chase % was a great improvement and something to continue to build off. Looking for more pitches to hit in the middle of the plate until getting to two strikes will also help him do more damage.
